Take a Flight of Fancy with Villa Kubu's Pre-Flight Villas and Sensual Spa Venus

With most International flights departing Bali well after 10pm, many visitors to the Island of the Gods have the end of their trip marred by the seemingly interminable gap between their check-out and flight check-in, which can be up to 12 hours of aimless wandering before an overnight flight - definitely no way to end a trip to paradise.

Spa Venus at Villa Kubu finally has the solution with Pre-Flight Packages that can include bespoke spa treatments and use of a beautiful private pool villa, complete with room service, spa services, and just a breezy 20-minute drive to the airport, the perfect luxurious and relaxing end to any holiday.

Simply check-in to your luxury villa and enjoy the gardens, privacy, tranquillity, and five-star service, until it's time for the included airport transfer. On top of this you can enjoy any spa treatments, such as nurturing massages, anti-aging facials, deluxe mani-pedis, and all in the comfort of your own villa. Guests can order room service from the Kubu's renowned Oasis Restaurant & Bar and relax by the pool or watch movies in the air-conditioned movie room – think of it as adding an extra day to your holiday.

Located in the beautiful Seminyak area, Spa Venus at Villa Kubu is walking distance from Seminyak Beach, not to mention just 20 minutes from Bali's International Airport, perfect for the Pre-Flight Package.

Spa Venus is surrounded by the lush grounds of the Villa Kubu Boutique Hotel & Spa and is also one of surprisingly few places in Bali to offer a suite of holistic and alternative healing treatments, including Reiki, Craniosacral Therapy and a Far-Infrared Sauna; as well as more traditional treatments including Balinese massages, an exfoliating Lulur Body Scrub that adopts ancient beauty rituals from the royal palaces of Java, and a Balinese Boreh spice wrap to leave you feeling utterly restored and rejuvenated.

All treatments can be complemented with a wellness menu and huge range of fresh juices, mocktails and cocktails, perfect for Detoxing, Pretoxing or even Retoxing after your spa experience! Special dietary requirements such as gluten-free menus can be catered for and the chefs are happy to tailor any dishes to your specific needs.
