10 exceptional beachfront stays in Bali that are different from what you think

You may have heard all about beach villas and think them second in comparison to [cliffside resorts with gorgeous views](#), or [water villas with amazing pools at your bedside](#).

But did you know that you can actually ride on camels or play golf by the beach, features you probably can't get at the edge of a cliff?

Check out our selection of oceanfront villas and hotels – not only are they fringed by tropical reef and turquoise seas, but you'll have such a unique experience that you won't feel the same about them again.

Note: The prices reflected below are the low season rates, and they exclude tax and service charges. Accommodation rates often change with room availability, and low or high seasons. We recommend double checking for the final prices before confirming your booking.

9. You'll get nothing but privacy here! – Luna2 Private Hotel

Want to experience private villa living, but can't bear to let go of the facilities that hotels can offer? Luna2 definitely gives you something to that effect with only 5 rooms available.

You'll have your own private chefs at the hotel restaurant, as well as a bar and a wine cellar. A snazzy Lunamobile and driver are also ready to take you wherever you want to go, *whenever* you want to go!

The service here is awe-inspiring, and the design is not to be overlooked as well. With a one-of-a-kind mix of retro, modernist and futuristic elements, how could it possibly be? Each of the five rooms have their own colour, and are filled with timeless, hip furniture.

The (*your*) hotel's pool also features a quirky surprise – an image of Marilyn Monroe is tiled across the bottom of the pool! We doubt you'll ever want to leave Luna2 – just sitting around and admiring this place would be more than enough for us.

But alas, that is not to be, for you have more to explore. Especially when you'll get free temporary membership to the Canggu Club, as well as complete access to the neighbouring Luna2 Studiotel's facilities.

PS: If you're out for a fully private experience, you might want to know that Luna2 Private Hotel was actually created for the purpose of giving tourists a *private* hotel experience. This hotel only has five rooms, and once you book them all, privacy is all yours.
