Travelling with Kids to Bali - Villa Kalimaya IV review

Right now, it is sad that my sun-kissed tan is disappearing tragically and sipping freshly-squeezed watermelon juice in the pool is no longer part of my daily routine. Yes I've returned back to reality from my amazing week spent in this tropical island called Bali.

This is where you find romantic beaches, magnificent rice terraces and charming towns bustling with the most sincere people. There are so many reasons why this beautiful island can capture the hearts of so many travelers across countries.

Travelling with Kids to Bali

Villa Kalimaya IV review

Published October 8th , 2017

Right now, it is sad that my sun-kissed tan is disappearing tragically and sipping freshly-squeezed watermelon juice in the pool is no longer part of my daily routine. Yes I've returned back to reality from my amazing week spent in this tropical island called Bali.

This is where you find romantic beaches, magnificent rice terraces and charming towns bustling with the most sincere people. There are so many reasons why this beautiful island can capture the hearts of so many travelers across countries.

Bringing our sunshine boys along this time (our 3 years old and 5 years old) made this trip a little different from my previous Bali party trips with my girlfriends. However, with the right choice of accommodation and kids-friendly itinerary such as visits to the animals safari, water parks, nature hiking and beach activities down the coastline , this feature-rich island can easily make a great holiday destination for the whole family to create wonderful memories together.

If you seek a private pool , a bigger running space for the kids and to spend each day surrounded by the personalized service of butlers, housekeepers, chef , in-villa masseuse and a chauffeur , then I would highly advise you to stay in a recommended villa like Kalimaya IV; a sophisticated and secluded two storeys 3-bedrooms villa located in the heart of chic Seminyak.

From the moment we sashayed into the villa, we were already treated like royalty! Therefore in this blog entry, I'm going to share more about Villa Kalimaya IV and explain why it deserves to be one of your top choices for family-villa in Seminyak, Bali.

Kalimaya IV offers a contemporary interior design that combines perfectly in an idyllic Balinese setting. This two levels mansion reflects the traditional Balinese culture stylishly between the light tone furnishings and the contrasts of dark wooden beams and frames.

Set within a private lush wall garden and surrounded by lush tropical greenery, this tranquil ambiance makes you want to leave the hustle and bustle of everyday life and just totally switch you into your zen mode.

Our villa comes with a mini hydrotherapy pool right next to the 13 meter adult pool, which makes a very good spot for my young boys to have their waterplay under our watchful eyes.

The daybed under a pavilion adorned with Balinese traditional art on the wall, was my favorite spot for all my OOTD shots for this trip.

The far-infrared sauna was a surprise to us as we didn't expect to have our own private sauna that we can use together as a family.

Yup, and I really mean...as a family :)

All bedrooms were tastefully designed in luxurious dark earth tone to reflect the Island's laid-back lifestyle.

Mosquitos are pretty much unavoidable when staying in a villa near to the beach and surrounded by lush greenery. However the housekeepers did their utmost ability to keep them away by burning mosquito coils, fogging twice a day, providing repellent and mosquito nets for all the beds in the villa.

With oversize soaking tubs and walk-in rain showers that bring you closer to nature, there's nothing more we can ask for ...

We have a kitchen that was fully equipped with all the appliances we need to cook a meal but of course we don't have to lift a single finger because of our private chef! Every morning, the chef prepares our daily breakfast and all would be served nicely on the dining table. So waking up by the aroma of coffee and delicious smells of eggs and bacon is certainly the best way to begin our day.

The villa provides chauffeuring service which is definitely useful and necessary for us to explore other areas of Bali with our boys. Our chauffeur never fail to reach our door step ready to pick us up even before our arranged timing. And with these two noisy young boys in the car, I've to give thumbs up to our chauffeur for his patience and tolerance to them. To stuck in the car for two hours with them is no joke haha!

It is so convenient that Villa Kalimaya IV is just 15 minutes walk away to Bali's most revered lifestyle icon, Ku De Ta! Globally renowned for its gorgeous beachfront, premium dining , laid-back beach vibe, and vibrant nightlife

My sunshine boys can easily stay out the whole day at the beach, burying their toys , having sand fights chasing after waves ,picking up seashells and just spending moments together under the beautiful sunset.

Another nearby place to explore would be the Seminyak Village which is just 5 minutes walking distance right outside our villa. There's nothing compare to a bit of retail therapy to treat myself for this holiday.

We were truly touched by the friendliness and genuine service from the dedicated team of staffs from Villa Kalimaya IV. They were more than accommodating to our active sunshine boys who were just as happy to have them around. The villa manager is always all ready to discuss our concerns, help with the planning of our itinerary and do what they can to ensure we have a wonderful holiday in Bali. And yes we had so much beautiful moments with our sunshine boys at Villa Kalimaya IV and these memories were be forever etched in our hearts. Thank you.

Villa Kalimaya IV
